Renovations to the Red Tree Square are over \$1,500,000.00, and WSS anticipates an estimated annual sales of at least \$4,500,000.00.

WSS's primary focus is on working-class communities. The first WSS store opened 35 years ago. They now have over 80 stores throughout California, Nevada, Arizona, and Texas.

Josue Garrido (pictured above) is the Manager of the Windcrest location. He has worked for WSS since 2017 and states that WSS is in his blood. Josue relocated from California to Texas and said he loves the area and the people in Texas.

The Windcrest location has over 27,000 different products ranging from socks, shoes, hats, and clothing in all sizes from children to adults. They offer a huge clearance section, as well as competitive pricing. Josue states new products arrive five days a week, so something new is always coming in.
