

October Business of the Month

Dr. Chris Reger is proud to be an 8th generation Texan. After graduating from Baylor College of Dentistry in 2004, Dr. Reger owned a practice in Dallas and taught part time as an adjunct professor at the dental school. While Chris enjoyed his time in Dallas and met his wife there, his love of the Hill Country and the people of San Antonio brought him back to the area in 2008.

Soon after Dr. Reger moved back to San Antonio, he met the Slattery's. Dr. Slattery was retiring after being in the Windcrest location for over 20 years and he wanted someone to care for his patients the way he did. Because of Dr. Reger's accomplishments as a dentist, his character and his genuine care for his patients, Dr. Slattery offered his practice to Dr. Reger providing he would keep the "family feel". Not only did Dr. Reger keep the family feel, he kept all of Dr. Slattery's staff when transitioning the practice. To this date, many of the original employees are still the friendly faces at the office.

Office Manager: Diane Kinhead

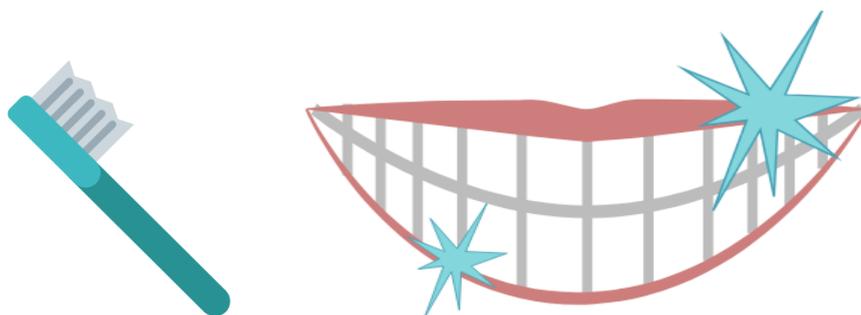

Dental Hygienist: Stacie Milanovich
